Today we will give you an update for our screensaver Sonetto 2.0. The first part was back in February, in which we have released Sonetto 1.0. As you can see, the screensaver is very similar to the previous version. But what's new is the addition of a cloud based service, which will help you to keep up to date about your favorite brand. Now, what I'm going to show you today is the video version of the screensaver. You can simply download the video version of the screensaver and play it using your favorite media player, you can also watch the video in full screen mode. Another way to watch the video, is using a streaming video service. You can try them all, all of them work. Now, let's take a look at the screensaver and see if it's what you've been waiting for. Now that we've told you about the screensaver, let's dive right into the screenshots. Let's check out the screensaver's interface. This will be the main view of the screensaver. Here you can see your currently loaded images from the cloud. You can access the options from the screen itself by pressing the options button at the top-left corner. We will talk more about this later on.
