The main purpose of the PFM is to encourage the open exchange of artworks through free advertising of artists' work and through a platform that allows users to rate artwork. What is Pixiv? Pixiv is an online community of artists and art lovers. The Japanese website allows users to upload their illustrations and get feedback on their work. The website gathers a wide range of artists, and it allows its users to participate in and actively engage with a social network where digital artwork exhibition is at the forefront of everyone's motivations and interests. Pixiv is not a social networking website, but rather a platform where users can upload, share, rate, discuss and sell their artworks online. Pixiv users can upload up to three files (without watermarks) per album. The free version allows you to upload three files, and the paid version (pro version) allows you to upload up to 500 images per album, with the possibility of watermarking the images. One of the biggest strengths of Pixiv is that its artists can upload illustrations without having to make any financial investment or liability commitment. Users can either download illustrations for free, or

founded in Japan in 2007, and the website currently hosts over 40 million illustrations. Pixiv content is uploaded by artists from all over the world, and most of the content comes from North America, Europe, Japan, and South America. The website offers its users the chance to upload their illustrations and get feedback on their work. The Japanese website allows its users to engage with other users and access a social network where digital artwork exhibition is at the forefront of everyone's motivations and interests. How to download Pixiv? Pixiv Downloader is a free and easy-to-use tool, but to get access to the website, you have to sign in with your Pixiv account. Pixiv Downloader can either be installed as a desktop application, or you can choose to directly log into the website with the software. However, signing into the website can be a little tricky. If you are having trouble signing into your account, you can use the application, and sign in with the Google/Facebook account that you use to log into the website. Why use Pixiv Downloader? Pixiv Downloader is a bit large and probably not suitable for a machine with reduced storage space. However, Pixiv Downloader works well and has a colorful, cute interface. At the same time, you can switch between a blue and a dark interface. You must have already signed up for a Pixiv account, prior to the installation/usage of Pixiv Downloader.
