Forgetful Dictator is a surreal brainbuster, a humorous way to teach yourself about the world. What do you mean “the world?” 180 countries, territories, capitals, lakes, rivers, mountains and more. What’s that? YOU DON’T know? Well, you’re just going to have to learn. There’s a world of information, and it all needs to be memorized. Some of it will seem very obscure, or even obscurely obscure, and that’s sort of the point. Don’t take it too seriously, but learn it carefully, cosign if you can’t answer. Forgetful Dictator is a great way to make sure you’re not going to forget stuff from your travels. These few countries could turn out to be the very end of your road. You’re not in this alone, of course. You’re part of a vibrant community of aspiring forgetfuls, with hundreds of other little yellow people. That’s who will help you solve tricky questions and provide you with helpful hints. It’s a global conspiracy! Everyone in the world is on your side! You can’t lose! Activity 'Forgetful Dictator' is an educational game, but it does contain some strong language. In this game you will travel from country to country, learning the names of the countries, their capitals, borders, rivers, mountains, and whatever else you can find. To get you started, we’ve even selected the best 200 questions and provided you with hints to help you out. If you do feel overwhelmed, you can always go back and refer to the list of questions and the hints in the game. We’ve even included a custom hint generator on the right side of the screen, which can be used to help you get a better answer when you know where to look. The game gets harder as you progress, with more countries to learn and harder questions to answer. Give your brain a hard workout and see how you c9d1549cdd
