6. **\*\*Use the tools to resize the image if needed\*\***. Most images need to be resized (modified and/or made smaller) when they are going to be placed on a web page. You can use the Rectangular Marquee tool (the RMB/Ctrl+O) to select the area of the image you need to resize. Here's a quick example. You have to choose colors on a color wheel, which, of course, is a great tool for applying gradients. ## Using Pen Tool Techniques The Pen tool (LMB/Ctrl+P) is one of the most powerful tools for editing an image. The Pen tool creates a raster image and can also distort or draw freeform lines. It can also doodle, burn, and draw with a brush-like effect.
