
Five Finger Death Punch, The Way Of The Fist Full EXCLUSIVE Album Zip

in december 2018, the band released a statement saying that they would be taking a break from music to re-evaluate their career and recharge their creative batteries. they also revealed that they would be playing more than 50 shows in 2019 in support of their new album, 'the wrong side of heaven & the right side of hell, vol. ii.' in the new, album the way of the fist is following a metaphorical journey for the two vocalists, where lyrically the two channels off each other and come to the studio a completely different creature. the base of the album was written over two years in the making, so when writing the album, me and zoltan were very different people and ended up bringing a lot of different elements into the equation. as much as it does, this record is about the two of us. as much as it is about the two of us, it's also about the four of us and [the rest of the band]. the journey this time around was very different for us. it was our first time in that role [as band leader] and it's been an extremely rewarding experience. at the end of the day, it's about letting your fears go in the room and just getting in there and being honest. you open yourself up in the room and lay those arms out and just be open, and that's what this album is. it's about trusting yourself and the people that you're around. you let yourself be vulnerable and you have to trust that it's gonna get you somewhere, and at the end of the day, i think that that's something to be proud of. yeah, i think it's probably more personal for [bathory]. he has this growth spurt where he's been kind of stuck in his shell for the last 15 years and just started letting it all out and just started being more comfortable in the room and it's a real breath of fresh air, and a great thing for us."
