The bardin adds a new look to the ranger bardin and its unique armor. Some details of the skin: * skin consists of 33 images (face, armor, belt, armpit, hands, back, legs, feet) with unique and stylish movements * all the textures are prepared for real-time shadow mapping. * free for all Warhammer Vermintide owners. IMPORTANT NOTE: once you have installed the game, your save data will NOT be affected and you can continue playing with your old character without problems. However, in order to apply the skin you will need to delete your save games and let the game install the new content. This mod is less a part of Vermintide and more a part of the Nexus Mod Manager. You can use it to change.esp, textures, sounds, meshes, enums, enums and maybe even item variants. Most of the textures are resized to fit the game's 640x480 resolution. REQUIRED SAVES MvM (the next patch) Ancient Armour (the next patch) REQUIRED LANGUAGES Text: English Database: English UI: English Misc: English Installation: 1. Download the mod and unzip its files to wherever you would like to install the mod to. It's recommended you download it to your Skyrim Data directory. 2. Copy the texture files from their respective directories. You will need to use the file you found in the images section here or if you got the texture from a mod instead. 3. Place everything else inside the mod directory. 4. Copy the meshes and sounds to the respective directories in your Skyrim directory. 4. Set the language to the language you downloaded it in, if you're using the German language. 5. Install the mod through Nexus Mod Manager. Do not apply it through the Skyrim Launcher. 5. Wait 10 minutes for the installer to update and it should be ready for use. Uninstallation: You can remove the mod by deinstalling it through Nexus Mod Manager. If you're not using Nexus Mod Manager you should still have the uninstall option. If you don't it's probably best if you uninstall the mod using the game launcher. If you're unsure what all of these folders are or what they do, here's a quick

Be the pioneer of the past, present, and future!-----From game developersYour majesty, here are some tips for our game.Firstly, the units and formations really matters. Distinguished from other common SLG games, victory or defeat is not merely decided by the amount of soldiers or heroes in Conquest of Empires.We hope to reproduce a true battle field of thousands of charging soldiers, where every soldier has his own AI, position relation, shooting range, ammo calculation, moving speed, interactions with other units, in addition to the attack or defend strength and skill effect.Secondly, we highly emphasize the reality of territory expanding
