The game is the first to feature real-time motion capture data in gameplay. FIFA 18, for example, used motion capture data, but was limited to close-range match editing. Features New Attacking Concepts in Match Conditions Make the best use of cover, create space for the ball carrier and turn to face the ball for a quick shot. Exploit the attacker's speed at times when defenders are dragged out of position. In high tempo situations, turn in the direction of the pass or dribble to avoid redirection by the opposing defender. Play out a quick counterattack after

pressing the ball over the top of the midfield. New Defensive Concepts Get in the right place fast. Turn quickly and be aware of where your team-mates are at all times. Keep an eye on the team-mate closest to you with an early run out of defence. Predator role: jump higher when a ball is about to be played, intercept a pass and break your marker's run. Seamless Player Switches Go from defence to attack with just a single button press. Move and pass while in control of the ball. Play with a free, two-footed touch. The defensive game Play out an elaborate defensive set-up with multiple rows of players. Choose to lead in defensive set-up scenarios to protect your goal and force the opposition to play out from the back. Switch to a more direct defence to force an open shot. Make the best use of your space with the Defensive Centre Position. Save your energy by trapping the ball and playing it out from midfield. Tackle Whether caught in possession or when defending, just tap your A button to receive a tackle. Position yourself ahead of your team-mate, and see the ball for when it comes. Boost: boost and pass at the right moments. New Player Commentary Enjoy detailed commentary by in-game expert Alexi Lalas, now voiced by an A-List Hollywood actor. UEFA Champions League Play the new Champions League and UEFA Super Cup modes with all 32 teams. Can your club win the UEFA Champions League trophy? Fifa 22 Product Key introduces two new modes: Champions League and Super Cup. Both require the full version of FIFA Ultimate Team, and will be available

Take on the manager role and manage your club as you go through an entire season in a story-driven simulation. You are the manager of a football club and get to do lots of other things. Build a reputation and win trophies. Decorate your stadium. Expand your player roster by scouting the players, managing your staff, and recruiting new talent. Choose the tactics and formations to suit you. Mix and match your teams and play against your rivals. Think big and look to take out the competition with blockbuster transfers. Make goals or score lots of goals by playing one of the most realistic sports games on the market. This is the most ambitious version of FIFA to date, with new faces, new stadiums, and new stories. Gameplay At the core, the core of FIFA is the same as in every FIFA game before. There's always going to be a more fluid and fun experience for players who are able to enjoy it, but the fundamentals of the sport of football have remained true. The biggest change in FIFA is that the game makes it easier for players to control the flow of the game by adjusting things like defensive line placement, where the ball goes next, and where you want the ball to move for this next pass. The easier the game is to play with simple touch moves, it makes the game more enjoyable for players who aren't doing well on the sticks, but it also makes it so the game is also easier for the elite players to dominate as well. There is new easier way to play with more fluid touch moves and new ways to break down defending teams. FIFA 20 brought in more aware players, improved their movement, and the bc9d6d6daa

FIFA games are the fastest, most-popular football game on any console, delivering the best gameplay in the genre. Game Review: FIFA 22 What's the point? EA SPORTS FIFA 22 catches up to the real thing. At the heart of EA SPORTS FIFA 22 is gameplay with fundamental changes that make the game more intuitive, react more naturally to your ball skills and strategies, and reward individual actions moreso than ever before. FIFA 22 will also introduce numerous new features to the game, including integration with EA SPORTS "The Journey", career mode, Augmented Reality and more. Gameplay EA SPORTS FIFA 22 brings fundamental gameplay changes that will transform the way you play. "Powered by Football" goal celebrations allow players to build a more authentic and personalized run-up sequence that feels right in your hands. "Tweak" assists signal a player to press harder or softer, depending on how they respond to the ball. And "Next" human intelligence provides a better understanding of your actions and strategies. FIFA 22 creates a better understanding of your efforts on the pitch, giving you more control over the flow of the game, so you can dictate the pace and rhythm of your matches. New Skills can be used to perform more varied actions with the ball, and more "option" passes allow for decision making during long passes. The AI responds more naturally to strategy changes and displays more intelligent, spontaneous behavior on the pitch. More than ever, each player has a unique model that reflects their actions, skills, and more. "FIFA Prediction" technology has also been improved, providing a more accurate and intuitive way to predict shots, shots on goal, and headers. A new 3D physics engine delivers a more accurate, responsive and reactive simulation on the pitch, delivering more immersive gameplay and goal celebrations. One of the biggest changes in gameplay this year is the addition of "IFTAv2". The new system now rewards skilled play, giving the player a better sense of control over the ball, the pitch, and more. In addition, "Powered by Football" will bring players to life, providing a new look and feel to the game, new animation, and player models that are more detailed. NEW! Individual player models - Packed with unprecedented visual detail, FIFA 22 models each player down to their head, nose and toes. NEW! New 3D physics - The new physics engine builds on the innovative AI engine used
