Posted. Pheasants Oldermop. I had it happen to me once before that I had an iOS 7.4.3 update on my iPhone. And it said it was going to install, but when it was done. it failed to actually finish, but it wouldn't turn on and the screen was stuck on a certain logo I couldn't get past. So maybe you didn't fix that. I remember the PCC files being something like 101x. And I know how to fix this so that it is the perfect and most stable OS 7.10.3 kernel. I'm not going to say anything on how to do this, because this is not a problem at all and there is an easy and short walk-through for this in this guide on my YouTube channel, so if you would like to watch it, or maybe even use it yourself. Instructions. How to Install iPhone 6SE OS 7.10.3 Features, Kernel and Over-the-air Update on iPhone 6S Plus. How to Fix iphone 6s lollipop 7.10.3 problems on iphone 6s plus 3d,red and black phone, bad batery message, freeznes, freeznes, freeznes after reboot, bad samsung puter, lollipop not on fg0035, bad flash, Phone stuck on boot screen.. I had a Blackberry phone that was running IOS. I tried to update to the latest version of iOS without a computer. So I looked online and found a tutorial how you could download and install iOS 11.4.1 using JustAnswer Android? Download. I was completely confused and couldn't find any solution. How can I update to iOS 11.4.1 using JustAnswer Android? Download. I had a Blackberry phone that was running IOS. I tried to update to the latest version and it failed. So I read that people said it was impossible to update to the latest version of iOS without a computer. So I looked online and found a tutorial how you could download and install iOS 11.4.1 using JustAnswer Android, and I
