## Power Soft Toolbar Skin Maker [2022-Latest]

Create your own skin for Power Soft applications, including PowerNotes, Logos, Emoticons and Dynamic Notes. You can choose from a wide variety of skin elements like Text, Background, Shading, etc. The skin editor allows you to change the information about your skin. To display your skin in Power Notes, you must 1. Install Power Soft Toolbar Skin Maker 2. Open the "Power Notes" application 3. Select the "Edit..." item 4. Select "Open skin..." The skin elements are located in the folder "Layouts," which has the following file structure: /Layouts/Cards.xml /Layouts/Emoticons.xml /Layouts/Layouts.xml /Layouts/Skins.xml /Layouts/Text.xml /Layouts/TextResources.xml /Layouts/TextTabSet.xml /Layouts/TotalText.xml You can edit the following information about your skin. 1. Choose the skin from the skin list. You may also load an image or choose a background that contains the elements. 2. You can also choose the background color, font, font size, and

---

positioning. 3. Select the area of your image where you want to place the card elements. 4. Here you can adjust the position of the card elements relative to the text elements. 5. You can change the font family, font size, and color. 6. For each card element, you can choose a color and a transparency. For example, a transparent card element may be combined with a transparent background. 7. Choose the font families and sizes. You can choose between two different font styles, depending on whether you prefer a more horizontal or a more vertical looking layout. 8. Select the amount of space between the card elements and the text element. 9. There are several options for adjusting the horizontal alignment of the elements. 10. Here you can adjust the text alignment. 11. You can choose the background color for the elements, such as the card borders. 12. You can change the opacity of each element. The created skin is saved in the folder "Layouts" in Power Soft Toolbar Skin Maker directory. The elements of the skin can be loaded in Power Notes by using the

---

"Open skin..." option. Here is a
