□Fisher Fans□ is a fishing game created by Shanghai Benli Technology Co. Ltd. The theme of “fishing” is introduced in the game title, and what it means is that even you might not have known it, it is not unfamiliar when you’re called “crazy-smart” by your fishing fans. The game was popular during the years when the fishery village simulators were the most bustling places in every game room, and even now it’s still the red stamp of “fishing” in the gaming market. As VR experiences are becoming the new trend, “fishing” theme games have made to diversify gradually, and even have their own identity in the games developed for children and teens. On the contrary, besides several big fishes, the fish theme games are always on the spot to help the ordinary smartphone users enjoy the games, and they are undoubtedly the first preference to the common smartphone users when they are faced with the short playtime. □About This Game□ □Fisher Fans□ is a fishing game created by Shanghai Benli Technology Co.
