i have a sandisk cruzer blade 4gb, and i tried to install driver for it. but there was no driver for it. so i tried to find for driver for it. i downloaded the sandisk cruzer blade 4gb driver, and when i try to install the driver for it, there was no driver for it. so i try to find a driver for it. i go to device manager, and i can't find the sandisk cruzer blade 4gb, and i can't find the driver for it. i search for sandisk cruzer blade 4gb driver, and there is no driver for it. i searched for sandisk cruzer blade 4gb, and there is no driver for it. i tried to search for sandisk cruzer blade 4gb driver, and there is no driver for it. i try to find a driver for it, but i can't find a driver for it. hello, i've recently bought a sandisk cruzer drive. i formatted it to ntfs, and used it for two days with no problem, then it started to freeze up. i was able to install some programs, but i could not use any removable device, like an ipod, hard drive, usb drive, etc.. then the thing started to freeze again, i unplugged it and plugged it back in, but i could not access it, the drive was not recognized, i could not load any programs because the drive was not recognized. then, i formatted it to fat32, but it still

doesn't work. i've tried everything i can think of, the usb connector is not broken because i have another sandisk cruzer that i use and it works fine, and i've also tested it on my sister's computer and it works fine. i don't understand what's wrong with it, i even downloaded the sandisk driver for windows xp and vista, but nothing works. i'm using windows 7 enterprise x64, and i have tried to connect it in two different usb ports, and i've also tried to connect it in the other two usb ports, nothing works. thanks for any help you can give me. i really need to use this drive.
