iCloud-locked phones usually come with two phone numbers. One belongs to Apple; the other belongs to a company called Freedom Mobile. To make extra money from these phones, bad people will set up fake websites and email accounts that look like they belong to Apple or

Freedom Mobile. The listings can be very carefully written to trick consumers, and they can be extremely lucrative. Its easy to fake usernames, including those for Apple or Freedom Mobile, and resell them for prices that seem reasonable. Many of the iPhone iCloud-locked listings on eBay and Craigslist are actually sold by a reseller, often an intermediary between the seller of the phone and the iPhone shipper that post the eBay or Craigslist ad. This firm will often buy the phone from the seller, and then arrange for the iPhone to be shipped to the buyer, along with an explanation that the phone is worth \$399 (the asking price) and contains a full, working, preloaded version of iOS 10. Theres no shortage of people offering Apple iphone unlock codes online and on Craigslist. Theres no shortage of sellers offering to sell you access to iPhone unlock codes for your iPhone. Theres no shortage of people selling iphones on Craigslist, eBay, and at the thousands of flea markets in America. But why would you trust anyone but the people youve gotten to know or been casually familiar with online. Selling the unlock codes of a target phone is not legal, and several of theCraigslist users we talked to had received at least one cease and desist letter, plus a few public warnings from Apple. You can then put in the other information and hit the run button. With this, you can generate an SQL script of the email addresses you harvested. But it's not just that. With this script, you can generate most any data that's related to your target. That would include posts, pictures, and other data. Simply install the program and extract the data into an SQLite database you created. While this program is very powerful and easy to use, it still requires manual intervention to harvest data. 5ec8ef588b
